

# DT Tourmaline Band

For Wrist, Waist, & Knee

## Guidelines For Use

- Wear product over clothing for no more than 10 minutes. If worn directly on skin, only wear for 5 minutes.
- May use product up to two times a day—10 minutes at a time.
- For safety, do not use product while sleeping.
- Remove product if it feels too uncomfortable.
- Heat generated by waist belt can aid in fat loss in the stomach area and may be worn during regular exercise.
- Time taken to feel heat and response to product will vary by individual.
- After wearing product, allow 10–30 minutes to start feeling benefits. A possible intense sensation is normal and will not cause damage to skin.
- People with cooler body temperatures may require more time than others for product to begin working.
- After taking off band, positive effects may be felt for 1 hour to one day. Do not shower or bathe in product. Keep treated portion of skin away from hot water.

The DT Tourmaline Band is a self-generating far infrared radiation device that derives its high-tech science from a “Natural Ore” of Brazilian tourmaline.

THE LATEST TECHNOLOGY WRAPPED UP IN THE COMFORT OF NEOPRENE

## How Does It Work?

### The Science Behind the DT Tourmaline Band

- The DT Tourmaline Band starts generating heat when it comes in contact with the body at a temperature of 97.7 °F.
- It's very easy and convenient to use and requires no electricity to operate.
- Because of its portable size, you can use it anytime, anywhere.
- Direct contact with skin for 5 minutes has effects similar to a hot towel treatment.
- Far infrared (FIR) is beneficial for improving circulation, strengthening the immune system, increasing mental alertness, and relieving stress.
- Tourmaline is the only mineral on Earth with a permanent charge or electricity.
- The Brazilian tourmaline in Dream Tree's bands are naturally heat generating and a non-manufactured source of far infrared rays and negative ions, which interact with water molecules in the body.
- FIR penetrates deeply and creates radiation and resonance absorption.
- FIR naturally emitted from tourmaline resonates in the body at the same frequency as water.
- People that absorb FIR wavelengths of 8 to 14 microns experience resonance absorption—a vibrating movement of molecules in living tissue that produces an increase in energy that activates cells and enhances metabolism.
- Resonance absorption by heat generation with the aid of FIR is achieved through the process of FIR vibrating a substance (such as the water in your body's cells) to its own frequency.
- When the molecules of a substance (like human tissue) are illuminated with electromagnetic radiation of the same intrinsic vibration frequency as the substance itself, the electromagnetic wave energy is absorbed and the amplitude of the substance's molecular vibration is increased.
- FIR from the DT Tourmaline band provides healing benefits while enhancing and energizing physical and spiritual states.

Please consult with your physician before using this product.

**CAUTION:** Pregnant women and children should not use this product.

Wear product over clothing for no more than 10 minutes and remove if it feels uncomfortable.

If worn directly on skin, only wear for 5 minutes.
